  Exposed Shower Mixer with Ceramic Handle
A new faucet inspired by the shiny diamond. Light reflects from the faucet tip to the hands through the water stream. With Turbitech technology, electricity is directly generated from the water power. No external electric sources are required, so no worries about the chords and electricity shock during use. The faucets are built on the ergonomic design principle for an easy on-and-off gesture. Every piece of Soft Paddle features a colorful, universally accessible handle made from thermoplastic elastomer, which is easily recognized for people with brain or eyesight problem.

**SPECIFICATION**
- The faucets are built on the ergonomic design principle for an easy on-and-off gesture
- Colorful thermoset polyethylene handle
- The light reflects on hand when use
- Rotatable faucet, allowing use from any angles

**MATERIALS**
- Made of brass
- White color made by Powder coating technology
- Handle made by Thermoset polyethylene

**GLOBAL AWARD ACHIEVEMENT**

The Right Choice, The Right Solution

Another innovation for stop valve installation which differentiates itself from any other concealed stop valves.

- **Flexible installation**
  Easy to install with every type of wall at any depth (i.e. brick wall, smart board wall)

- **Easy to maintain**
  Effortless maintenance without the need to break the tiles or dismantle the wall

- **Freestyle use**
  Able to use in conjunction with general concealed mixer stop valve and concealed mixer stop valve with diverter

**Wall Type**

- **Grooved concrete wall**
  Walls with pre-designated piping groove (for COTTO PROs)

- **Walls with pre-designed piping grooves for COTTO PROs**
  Installed by drilled and embedded procedures, including the additional installation of supporting unit.

- **C Line x Smartboard**
  Smartboard is embedded with the metal structure

- **Double wall, with offset and no offset**
  Brick wall with adjustable thickness as required

- **On offset**
  Offset used with wall with heat insulating which contributes to extra wall thickness.
SWITCH FAUCET
AN INNOVATIVE FAUCET DESIGN, WITH A ONE-TOUCH SWITCH

CT1126A
Basin Faucet with Switch Button Function

The Switch Faucet features a new wash basin faucet design and functionality with an innovative one-touch switch. Turning on and off is easy, at your fingertips.

Easy to use Adjustable water flow with a valve

TOUCH FAUCET
KITCHEN MIXER TOUCH FAUCET EASY TO TOUCH IT ON/OFF

Hand-free Function and the option to switch to manual operation. The latest innovation for sink faucet with touch-sensitive technology brings convenience and eradicates problem of touching the faucet with soapy hands. The faucet is suitable with different applications such as normal valve turning on/off or touching.

CT4904A(DC)
Touch Kitchen Mixer Touch Faucet (Battery Use)

The faucet spout can be moved left or right and the water is stopped when moved, eliminating the unwanted water spilling.

Requires 4 AA batteries for 100,000 uses

Switch on at the handle

PUSH ON/OFF

ADJUSTABLE AREATOR

ADJUSTABLE WATER FLOW
Aqua~Twins

Switch usage function by your finger tip.

An innovative dual-action kitchen faucet for your choices of using.

Aqua-twins is the combination of drinking and utility water functions in one faucet. The utility water is controlled by moving handle and the drinking water is controlled by the knob which clearly labelled “drinking water”. Drinking water is filtered through 3M filtering machine which is certified by the NSF International with the NSF43 and 53 standards. The filtering machine can be easily connected to the Aqua-twins and the water direction can also be changed simply by turning the spout left or right, for your convenience in every use.

3M Filter

3M water filter is guaranteed by the standards of NSF 42 and 53. Durability: 7,200 liters or 6-12 months depending on usage.

* Suitable for water that passes the standard according to waterworks authority
* IP No. 1501101782

CONVENIENT

2 in 1 tap provides both drinking water and water usage.

CLEAR

With 3M filter, drinking water is clean and safe.

CLEAN

With the production process which controls contaminants, water from the faucet is clean.

CLEVER LOOK

The filter can be easily installed under the sink and service your kitchen’s appearance.

IMAGINE TOTAL FREEDOM TO DESIGN A SHOWER WATER STREAM TO YOU ARE UNIQUE PREFERENCE

Because everyone has different lifestyles and tastes, we’ve introduced the ultimate water stream technology and aesthetics to satisfy your own preferences. As well as optimizing form and functionality, our water streams provide a sense of control and fulfillment - water streams that can be modulated like a fine-tuned orchestra under your control.

RAIN
The feeling of fresh summer rain lifting your mood and sense of wellbeing whenever you embrace the Rain stream experience.

WATERFALL
Experience the uplift enhancing power of nature. Our waterfall stream will bring you closer to experiencing the greatness and magical charm of a water stream - an eternal rejuvenating natural sensation.

MIST
For those. Living life to the full. experience our mist stream to restore your energy and creativity.

SOFT
Let the sensual gentle touch of soft stream relieve the hustle and bustle of daily life.

LAMINAR
The stream for those seeking a peaceful lifestyle. The Laminar stream comes with a sense of simplicity, subtle yet powerful.
OXI-PLUS

BUBBLE AIR SPA, SLOW LIFE PLEASURE
Spa Technology To Serve Your Needs

The new OXI-PLUS Technology Shower Head, an aerated innovation that infuses air molecule with water molecule, creating a soft touch with a gentle and smooth bubble of natural water flow. Enhanced with quieter operation, the showerhead releases you off the stress from life in the fast lane and you can truly feel the pleasure of relaxation in each shower time. One of the designs to serve the world trend by COTTO.

Another shower series with unique and modern designs selected by COTTO for you to experience the thin and smooth handle integrated with the novel "OXI-Plus" technology which mixes external air with water to create soft, gentle stream and save more water than conventional showers. The quiet operation ensures that you will experience the true charm of the water.

- **Z10(HM)** 1 FN, Hand Shower Set
THERMO SAFE TECHNOLOGY

Thermo Safe Technology is developed for safety usage. Apart from the automatic temperature control system which sets the maximum temperature at 38°C, this technology has been designed to protect the user from the heat while touching the bath mixer’s surface preventing overheating and providing safety for users.

SURFACE TEMPERATURE TESTING

The graph shows that the temperature of COTTO thermostat mixer surface reaches the highest temperature at 35°C, which is lower than general thermostat mixers.

1. Use the left handle to turn on the water.
2. Turn the right handle backward to reduce the temperature.
3. To increase the temperature above 38°C, press the safety button and turn the right knob forward.

CAUTION
1. Press the safety button and turn the handle to the left to increase the temperature above 38°C.
2. Do not remove the thermostat in order to maintain the accuracy in temperature control.

INSTRUCTION MANUAL

Pressure range: 0.1-0.5 Mpa. (1-5 Kg/cm²)
Cold water pressure must be the same as hot water pressure.

Hot water temperature: Maximum at 80°C
Operating temperature: Between 20°C - 50°C
Safe temperature: 38°C ± 2°C
