EXTRA LARGE, EXTRA POSSIBILITIES
COTTO’S LARGE PORCELAIN SLABS FOR VERSATILE APPLICATIONS

12 mm
Italian designs are still internationally appreciated and recognised as the top position in global design industry. Verve and creativity married with knowledge of techniques and materials are the key ingredients of a new world leading approach. Therefore, the phrase ‘Made in Italy’ does not only mean style, but it also represents a productive model combining flair typical of culture with the work ethics that have always characterised Italian manufacturing tradition.

The Cotto Grande collection is the result of an innovative slab-forming action. The powder is compacted by double rollers which allow the best forming process, and lower tension in the slab. This uniquely increases flexibility of the slab, while maintaining its physical strength. As a result, the fabricators are able to fabricate slabs of Cotto Grande collection with convenience and minimal breakage.

Continua+ is the most advanced production technology in porcelain tiles industry. It allows the manufacture of porcelain slabs within a wide size and thickness range, at higher output rates than those achievable with traditional products. Moreover, it is able to engrave and imprint the structure on the slab surface up to 0.8 mm, enabling the most innovative and realistic effect which no one else can achieve.

The Grande Collection is made possible by cutting-edge production technology from Italy. The manufacturing process not only enables production of unparalleled slab sizes, but also enhances its superior performances such as high physical strength, high resistance to heat and scratch, with low maintenance requirement.

This collection of porcelain slab was created by putting together the typical patterns of natural wood veins with the accent and touch of natural stone, harmoniously fused with combinations of monochromatic colors. With three available colors; White, Grey, and Black, Woodstone become the perfect surface solution of modern countertops.
The beauty of modern living decoration lies within every single detail from its colors to textures. Cement is inspired by subtle elements of concrete cement such as its rough accent and sophisticated grain and shade. It represents a paradox of imperfection that could captivatingly integrate in modern and simple design and decoration.

Cement broadens flexibility of decoration with its wide ranges of three colors: Bone, Ash, Ebony. It gives extra possibilities of design, while maintaining the authenticity of the material.
