EXTRA LARGE, EXTRA POSSIBILITIES
COTTO’S LARGE PORCELAIN SLABS FOR VERSATILE APPLICATIONS

6 mm
Italian designs are still internationally appreciated and recognised as the top position in global design industry. Verve and creativity married with knowledge of techniques and materials are the key ingredients of a new world leading approach. Therefore, the phrase ‘Made in Italy’ does not only mean style, but it also represents a work ethic that has always characterised Italian manufacturing tradition.

The GRANDE Collection by COTTO is an extra-large porcelain slab produced in new format up to 160x320 cm with 6 and 12 mm thickness. Its superior size extends possibilities and flexibility in architectural application from floor and wall covering to countertops and external cladding.

The Grande Collection is made possible by cutting-edge production technology from Italy. Its manufacturing process not only enables production of unparalleled slab size, but also enhances the superior performance such as high physical strength, high resistance to heat, and scratches, with low-maintenance requirement.

CONTINUA+ is the most advanced production technology in porcelain tiles industry. It allows the manufacture of porcelain slabs within a wide size and thickness range, at higher output rates than those achievable with traditional products. Moreover, it is able to engrave and imprint the structure on the slab surface up to 0.8 mm, enabling the achieve.

COTTO Grande collection is the result of an innovative slab-forming action. The powder is compacted by double rollers which allow the best forming process, and lower tension in the slab. This uniquely increases strength. As a result, the fabricators are able to fabricate slabs of COTTO Grande collection with convenience and minimal breakage.

CONTINUA makes difference

THE FLEXIBILITY OF STRENGTH

COTTO Grande collection is the result of an innovative slab-forming action. The powder is compacted by double rollers which allow the best forming process, and lower tension in the slab. This uniquely increases strength. As a result, the fabricators are able to fabricate slabs of COTTO Grande collection with convenience and minimal breakage.

From fashion to furniture, from automobile and gadget, Italian designs are still internationally appreciated and recognised as the top position in global design industry. Verve and creativity married with knowledge of techniques and materials are the key ingredients of a new world leading approach. Therefore, the phrase ‘Made in Italy’ does not only mean style, but it also represents a production model combining the typical of culture with the work ethos that have always characterised Italian manufacturing tradition.

From fashion to furniture, from automobile and gadget, Italian is home to world leading brands in various fields. Ceramic and porcelain tiles are not exceptions. With a constant commitment towards aesthetic research and technological innovation, design houses in Italy have achieved product and production excellence and have become more and more competitive in the international market.
Thanks to CONTINUA+ technology, COTTO Grande collection is available in an extra-large format of 160×320 cm (63"x126") at the thickness of 6 mm. This unique format extends possibilities of new designs and aesthetics of kitchen and vanity countertops, facades, and surface coverings.

COTTO Grande collection does not only come with captivating designs, but it is also a material of superior performance. The properties of porcelain tiles, combined with cutting-edge technology, make it perfect for countertops and versatile applications.
Balza represents borderless freedom and adventure of life in nature. Its monochromatic colors reflect a solidity and durability of a steep rock to withstand any natural impacts.

This series of fine porcelain stoneware was created by harmoniously fusing a natural pattern of natural-cut granite. Its surface recalls the flamed natural stone slab which delivers delicate movement and sense of touch to all ambiances. Balza is a prime series designed for all areas, from interior to exterior, of modern architecture.

A charm of marble has always been irresistible in human history. It is a symbol of class, luxury, and purity in every architecture and interior design. This new marble collection of COTTO Italia is dedicated to an eternal beauty of white marbles, the most cherished and revered of its kind. The collection is inspired by three of the most acclaimed white marbles — Calacatta, Statuario, and Arabescato. With its completing two sizes and two surfaces, Naturale and Lucido, it embodies every idea of luxurious habitat decoration.

BIANCHEZZA
are the point of departure for a proposal of ever-more seductive suggestions. Alabastri di Rex innovates the exceptional qualities of natural shiny porcellan alabaster using advanced production systems that make it possible to retain all the intrinsic properties of the handcrafted stone.
ALABASTRI DI REX
I CLASSICI DI REX

I Classici di Rex is the result of a feisty creative energy, capable of stamping a decisive character on the surroundings; they adapt to architectural spaces with astonishing solutions and contrasts that underline their natural inclination for beauty.

OPEN BOOK

CHAIN

THICKNESS: 6 mm

THE DRAWING IS PURELY ILLUSTRATIVE. AS WITH THE NATURAL MATERIAL, THE GRAPHIC DESIGN OF OPEN BOOK AND CHAIN MAY RESULT IN DISCONTINUITIES IN THE VEINING BETWEEN PANELS. DISCONTINUITIES OF UP TO 1.5 CM ARE NOT DEFECTS, BUT ARE CHARACTERISTIC OF THE PRODUCT.
I CLASSICI DI REX

A selection of fifties style atmospheres translates into cultured modernity thanks to the interweaving of the materials and the exaggeration of the contrasts. Personalization finds room among the most glamorous materials that nature has to offer. Out of Rex stylish laboratory research, a selection of 5 marble essences and 3 wood nuances are born that contest for domination in a single environment.

OPEN BOOK

The drawing is purely illustrative. As with the natural material, the graphic design of Open Book and Chain may result in discontinuities in the veining between panels. Discontinuities of up to 1.5 cm are not defects, but are characteristic of the product.

COTTO
Made of coloured body porcelain stoneware 6 mm thick, with a glossy finish, this series opens a new chapter in the Rex line of products dedicated to natural materials: Having presented tiles inspired by wood, leather and stone, the Rex line now turns its attention to marble. Among the many existing varieties of marble, the most precious and sought-after are the ones that are predominantly white, in Italian bianco.

The line includes three shades of white that represent light-coloured marbles and can make any room more exclusive and enveloping.
**PREXIOUS OF REX**

Four stone essences, rare, precious and extraordinarily elegant make their substance available to become icons of exclusivity. Each new collection of Rex is a unique path. A voyage without the confines of borders or time leads to the selection of the material, strictly rare, precious and natural, the inspiring muse of every creation. And then the Rex design is born, the technical expertise that investigates material to evolve in style. This is the genesis of Prexious of Rex which finds the first element of uniqueness in its very name.

PREXIOUS OF REX
The narration of an imaginary voyage through the suggestions of different locations to embody two inspirational sources with perfect chromatic balance. Stones & More evolves into Stones&More 2.0 to tell a story of renewed grace through fine porcelain stoneware surfaces with profoundly different graphic versions where the common thread is the same philosophy of elegance.

STONES & MORE 2.0

A refined selection of stone and marble breathes life into a new container.

Out of the study of metal and its evolutionary transformation, FLOWTECH is born. The Flowtech porcelain stoneware sheets define the style of a public and private environment through a bold industrial appearance. The iconic aesthetics of a specific selection of metals combine with the benefits of impervious properties over time and resistance to weather conditions that are so typical of “Made in Florim” porcelain stoneware.
